## Camp Success & Coaches' Night

*Submitted by North Bay Youth Soccer Club*

As the North Bay Youth Soccer season ends, the club thanks Ollie Wilkinson from Challenger Sports, who came all the way from Sunderland, England. It was a pleasure to be able to work with such a talented young man.

Ollie was able to work directly with our Mini Kickers (three years of age) each Saturday morning to teach them simple soccer skills through fun and challenging games. Ollie also worked each week with our U5 and U6 divisions. He was there giving support to each one of our coaches and assisting them with their teams.

We wish Ollie well in his next adventure. Who knows, maybe next year the club will see him again.

The Rapides Camp was a huge success this year. Ollie directed the camp this year with some volunteers. The Rapides camp taught the children various soccer skills, and a few scrimmages put those skills into practice.

The week ended with completion certificates and a water gun fight. A fun time was had by all.

A thank you to the volunteers and to McDonalds on Lakeshore for supplying a jug of ice water and a jug of their special orange drink each morning of the camp. The campers, and some parents, really enjoyed the orange drink.

At the annual coaches' night last September, the club honoured two coaches. NBYSC is very lucky to have Jean Larabie and Mark Robertson as coaches in the youth soccer club.

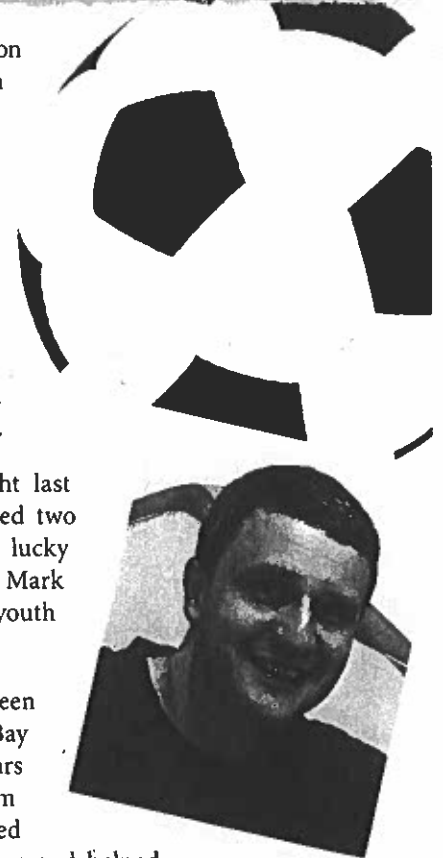

Jean and Mark have been coaching with the North Bay Youth Soccer for many years and often more than one team each. They have developed the skills of individual players and helped teams to win games. Both men are great leaders. They inspire their teams to reach their full potential and know how to motivate their players. They express enthusiasm with positive messages and have a remarkable attitude for the game. We are very fortunate to have these two fine men be part of our club and we would like to thank them for being there for the youth of North Bay.

We will be having our 2018 annual coaches' night September 5 at 6pm. It will be held upstairs at the West Ferris Arena and we courage all our coaches to attend. Check out [northbayyouthsoccerclub.com](http://northbayyouthsoccerclub.com) for more details.

Subject: 22 Wing Coach 4 Food 2018

Good afternoon Shawn,

With the 4<sup>th</sup> Quarter soon upon us, Shane Burden and myself are starting to plan this year's Coach 4 Food event. I want to coordinate early with you so you'd have advance notice of the event since the roadside stop may delay people who are going to work. We are looking tentatively looking at 30 November, with the caveat that it may slip a couple days in either direction as we get closer. Do you know in advance if this date will or will not work for your organization, in order to minimize interference?

The North Bay Police's presence was a fantastic attention getter and we'd love to have you out again. Let me know if you have any questions or concerns.

Dear Sgt. Brunette:

**Re: 2018 Families First Celebrations**

Our **Twenty-Fifth** annual Families First New Year's Eve Celebration hosted by the City of North Bay is scheduled to take place at Thomson Park, Memorial Gardens and the YMCA on December 31, 2018. New Year's Eve will be here before we know it so plans are already underway to create a fun, safe, action-packed and alcohol-free celebration for all families.

On behalf of the Families First Committee, I would like to encourage your involvement by inviting you to become a 2018 sponsor for this year's festivities. Every year it gets larger and better, and this year will be no exception. It is the generosity of our sponsors that allows us the opportunity to offer the families of North Bay a New Year's Eve to remember in a happy and safe environment. Through donations from local sponsors, we provide the event to the public free of charge.

We are hoping you will be able to help us with a donation of the same value this year. We look forward to your involvement in this fantastic community celebration. A committee member will be in touch with you in the near future. If you have any questions, please do not hesitate to call me.

Thank you in advance for your consideration.

Sincerely,

Erin Vaughan

## VIOLENT CRIME

Every year Statistics Canada reports on the number and type of criminal incidents that come to the attention of police services across the country.

The Crime Severity Index tracks changes in the severity of police-reported crime by accounting for both the amount of crime reported in police jurisdictions and the relative seriousness of these crimes.

To achieve this measurement, each type of offence is assigned a seriousness "weight". The weights are derived from actual sentences handed down by courts in all provinces and territories.

Statistics Canada updates the weights every five years to ensure that they reflect any changes in sentencing patterns or new legislation.

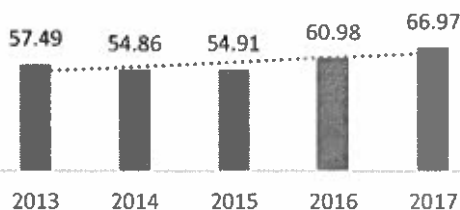

*Examples of identified crimes weighted:*

- Murder is 7,555
- Robbery is 523
- Level 1 Sexual Assault is 240
- Break and Enter is 217
- Theft Under \$5000 is 37
- Mischief is 28
- Impaired Driving is 13

## THE MOBILE CRISIS TEAM

### Background

In 2014, with a need to respond to the growing number of mental health calls for service in a more effective, efficient and compassionate way, the NBPS partnered with the North Bay Regional Health Centre (NBRHC) to create the community-based Mobile Crisis Team (MCT). The MCT, which consists of one police officer and one registered nurse experienced in mental health and addictions, responds to individuals and families experiencing a behavioural health crisis. The goal is to reduce the immediate risk of danger to the individual(s) in crisis and/or others.

### How it works

After police complete an initial assessment of a situation involving an emotionally-disturbed person and devise a safety plan, the MCT will either plan a follow-up visit with the individual (and family, if applicable) or solicit the assistance of other community services. In some instances, it may be necessary for patrol officers or the MCT police officer to apprehend an individual and bring him/her to the NBRHC's Emergency Department (ED) for further assessment. When not operational, the MCT will also follow-up on all mental health occurrences that took place during their absence.

### 2017 Results

Total mental health calls for service	<b>2,827</b>
Average mental health calls per day	<b>8</b>
Face to Face Meetings	<b>322</b>

### Of note

85% of mental health and addictions crisis calls for service occur between 8 p.m. and midnight.

Mondays were the busiest day of the week; and September and October were the busiest months of the year.

### Emergency Department Admission Rates

Individuals assisted by the MCT at the Emergency Department resulted in an 80% admission rate, whether on a Form 1, withdrawal management bed or inpatient unit bed.

Individuals who were not brought to hospital were met with and assisted through initiating services in the community in order to properly manage their individual

## DOMESTIC VIOLENCE

In November 2013, in response to the high number of domestic-related calls for service the NBPS receives, Chief of Police Paul Cook, City of North Bay Mayor Al McDonald and Ms. Janine Lafreniere of Nipissing Transition House joined forces to launch the OnePledge.ca campaign.

One Pledge is a community campaign aimed at encouraging local residents to make a difference. By signing the pledge, either in person or online, participants take a pledge to support safe healthy relationships at home, at work and in the community, to treat others with dignity and respect, to teach children the value of a healthy relationship, to never condone or commit acts of domestic violence, to never blame victims of domestic violence and to report domestic violence to the police. To date over 5,000 people have signed the pledge.

# THE GATEWAY HUB

## THE GATEWAY HUB

### Background

In 2012, sparked by a large number of Fentanyl-overdose deaths in North Bay, as well as a rise in domestic and mental health calls for service, Chief of Police Paul Cook partnered with Dr. Jim Chirico, Medical Officer of Health, North Bay Parry Sound District Health Unit to bring community leaders together to explore an innovative way of addressing these issues.

### Prince Albert Model

As a result of the early discussions and research, and based on the Prince Albert, Saskatchewan's Community Mobilization model, North Bay's Gateway Hub (the "Hub") was launched in December 2013.

### North Bay is a provincial leader

North Bay's leadership in establishing the Hub, the first of its kind in Ontario, has proven to be instrumental in the introduction of similar situation tables in other jurisdictions in Ontario and Manitoba, after human service providers from these communities visited North Bay to see how it works.

### Description

The Hub is a forum for a highly-structured collaboration between human service providers, including police services, health and social sector representatives, government institutions, First Nations, and other community-based organizations. Members of the Hub meet twice per week.

The intent of the Hub is to mobilize existing resources to help those in need rapidly reduce acutely-elevated risk. Acutely-elevated risk exists when a number of factors are identified that, if left unattended, would likely result in harm or lead to a situation worsening to a point where a more formal and extended intervention is required. This may include the apprehension of children, criminal charges, or prolonged medical or psychiatric inpatient hospital stays.

Before any situation is discussed at a roundtable Hub meeting, it must first be determined that the situation involves risk factors that extend beyond the scope or normal business practices of any one agency.

In most Hub discussions, three or more agencies must be involved to address the extent of the risk factors present.

### How acutely-elevated risk is assessed

The Hub has a defined process for determining if an individual and/or a family is/are at acutely-elevated risk and if a multi-agency intervention is required. The process is designed to balance an individual's right to privacy with the value or necessity of addressing the elevated risk.

Risk categories that could contribute to situations of acutely-elevated risk include: mental health issues, parenting issues, crime, drug abuse, negative peers, physical violence, alcohol abuse, truancy, victims of crime, housing issues, suicide, poverty, self-harm, physical health issues, runaways, antisocial/negative behaviour, basic needs issues, sexual violence, social environment issues and unemployment.

### 2017 Results

Since its launch in December 2013, the Hub, which consists of representatives from 17 local organizations, held **689** round table meetings to discuss acutely-elevated risk situations. In 2017, 66.4% of these situations were connected to services in the North Bay area. Mental Health was reported in 45% of all situations, followed closely by parent and child conflict and physical violence. **136** people directly benefited from Hub interventions in 2017.
